

Navigator Teams

The GWLPOA and the Whitewater-Rice Lakes Management District formed five Navigator teams in August 2021 in response to issues raised in the April 2021 survey of Lake District homeowners. The five teams are: (1) Boater Safety (2) Wakes and Shoreline Erosion (3) Pier and Boat Density (4) Good Neighbors (5) Governmental Issues

The Navigator teams worked hard for over a year to study the issues and make recommendations, many of which were implemented. Going forward, the teams will assess their progress and new teams may be formed to address additional concerns. If you have any interest in joining a team or providing feedback, please email volunteer@whitewaterlake.com
